

FR Technical Advisory Memo

No: TAMFR-2023-002
Date: January 31, 2023
Subject: Shock Seal Update

The following will be included in the 2023 FR Americas Championship Sporting Regulations, but please review it ahead of their publication:

All shocks used in official sessions are required to have the Championship labeled cable seals installed. If a team has any shocks that still have the blue wire seals installed, those shocks must be sent back to JRI to be resealed before the 2023 Road America event.
