DIGITAL FILES

Included in this guide on the following page are the Adobe Illustrator digital files necessary for proper utilization and execution of the FR Americas logo brand identity.

These files are the industry standard for digital output. When choosing a file type for any high quality output where premium resolution is necessary, use files with the .eps designation, which can be scaled to any size without any degradation in quality and include PMS, CMYK, and RGB color designation.

LOGO ISOLATION AREA

When using any of the digital files included in this guide, a minimum isolated space should remain around all four sides of the FR Americas logo.

Elements not belonging to the mark, such as type, other symbols, or photographs should not be placed within the area at any time.
